| STATEMENT OF CONFORMITY |
|-------------------------|

| | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|
| Section I – Aircraft | |
| 1. Make: | 2. Model: |
| 3. Serial No: | 4. Registration No. Z - |
| Section II - Engine | |
| 5. Make: | 6. Model: |
| 7. Serial No: | |
| Section III - Propeller | |
| 8. Make: | 9. Model: |
| 10. Blade Model: | 11. Hub Serial No: |
| Section IV – Aeronautical Product | |
| 12. Product: | 13. OEM Part Number: |
| 14. Manufacturer Part Number: | 15. Design Data: |
| Section V - Certification | |
| I hereby certify that: | |
| <input type="checkbox"/> (a) The aircraft described above, produced under type certificate only (CAR part 21, subpart 2) conforms to its type certificate number. _____ and is in condition for safe operation, and was flight checked on ___/___/___ (Date). | |
| <input type="checkbox"/> (b) The engine or propeller described above presented herewith for type certification, conforms to type design. | |
| <input type="checkbox"/> (c) The engine or propeller described above, produced under type certificate only (CAR part 21, subpart 2) conforms to its type certificate number. _____ and is in a condition for safe operation and was subjected by the manufacturer to a final operational check on ___/___/___ (Date). | |
| <input type="checkbox"/> (d) The requirements of CAR Part 21, subpart 9 (PMA) or 12 (TSO) as applicable, have been complied with for the product/part described above. The final inspection and test were completed on ___/___/___ (Date) | |
| Check (X) box/boxes appropriate to certification. | |
| Deviations: | |
| Print Name: | Title: |
| Signature of certifier: | |
| Organisation: | Date: |

INSTRUCTIONS

This form should be submitted to SACAA under the following circumstances:

1. By the applicant for a type certificate or a supplemental type certificate at the time of an aircraft or parts is/are presented to SACAA for tests.
2. By the applicant for a type certificate or supplemental certificate for each engine or propeller submitted for type certification.
3. By the type certificate holder or licensee manufacturing products under a type certificate only, upon the initial transfer by him of the ownership of each product or upon application for the original issue of an aircraft airworthiness certificate, or an authorised release certificate (Form CA 21- 19).
4. By the applicant for an aeronautical product submitted for design, production approval and installation as applicable.

This form should be completed as follows:

| | | |
|--------------|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Section I. | Aircraft. | Complete the pertinent part of any of this section when covers an aircraft or part thereof. |
| Section II. | Engine. | Complete this section when certification covers an engine. |
| Section III. | Propeller. | Complete this section when certification covers a propeller. |
| Section IV. | Aeronautical product. | Completed this section when certification covers an aeronautical product or aircraft part. |
| Section V. | Certification: | |
| | Item (a). | Check this block when the holder or licensee of a type certificate only, initially transfers the ownership of an aircraft manufactured under type certificate, or applies for an original issuance of an airworthiness certificate. |
| | Item (b). | Check this block when an engine or propeller is presented for type certification. |
| | Item (c). | Check this block when an engine or propeller is presented for approval and insert the date the product completed a final operational check. |
| | Item (d). | Check this block when an aeronautical product is presented for approval and insert the date the product completed final inspection/test. |

Certifying personnel who holds the appropriate authorisation in the manufacturing organisation must sign the statement of conformity.
