GENERAL NOTICE #PEL007: PHASED INTRODUCTION OF THE NEW SACAA LOGO ON LICENCE CARDS

Dear Industry Stakeholders,

Following the SACAA's announcement last year that it would introduce card licences bearing its new logo, we are pleased to provide an update on the implementation of this change.

The transition is being carried out in phases and is expected to be completed within two years of the official rollout date. Please note:

- Licence cards issued for applications processed from **12 October 2026** onwards will bear the updated logo.
- A new licence card will be issued automatically upon the initial issue of a licence, renewal, or amendment following a rating application. Licence holders are not required to submit a separate request for the issuance of the new card.
- Licence cards bearing the previous logo will remain valid until the expiry date of the licence. Upon renewal, a new card bearing the updated logo will be issued. Licence holders do not need to replace a valid card solely because it bears the previous logo.

There will be no interruption to services during the transition. Applications, renewals and related processes will continue as usual. Further information is available on the [new licence cards page](#).

For enquiries, please contact the SACAA Contact Centre from Monday to Friday, **07:00 to 17:00**, on **0860 267 435** or **+27 011 545 1000** from outside South Africa. Alternatively, you may email **clientcare@caa.co.za**.

The SACAA remains committed to serving the aviation industry with excellence, and we thank you for your continued support.
