ATA 04 – CANCELLED: Flight Manual – Modification

Manufacturer(s):

Reason:

The applicable Robinson R44 Rotorcraft Flight Manual (RFM), RTR 461, dated 18 March 1994, and its Revision dated 24 January 1995, included some obsolete data, the use of which could affect flight safety of the operated aircraft.

To address this potential unsafe condition, Robinson published the R44 RFM, RTR 461, dated 01 December 1999, and EASA issued AD 2006-0145 requiring operating affected helicopters in accordance with this RFM revision, or later.

However, as per the TCDS EASA.IM.R.121 issued in 2007, the affected helicopters must be operated in accordance with the Robinson R44 RFM, RTR 461, dated 10 December 1992, with revisions through 20 April 2007, or later.

For the reasons described above, this Notice proposes to cancel EASA AD 2006-0145.
