CIRCULATED TO CIVIL AVIATION AUTHORITIES*
(* as identified by TCCA Aircraft Certification Branch)

Dear Madam/Sir:

Transport Canada Civil Aviation (TCCA) would like to notify your office that effective July 3, 2019, the responsibility for the design and continuing airworthiness under ICAO Annex 8 for the type design change detailed in Supplemental Type Certificate SA05-50 is being transferred:

	<u>Design Approval Holder</u>	<u>State of Design</u>
FROM;	Norduyn Inc. 6200 boul. Henri-Bourassa Ouest Montréal, Québec H4R 1C3	Canada
TO;	Tulmar Safety System Inc. 1123 Cameron Street Hawkesbury, Ontario K6A 2B8 Canada	Canada

TCCA has established the adequacy of the design data and competence of Tulmar Safety System Inc., in fulfilling the design approval holder responsibilities of Supplemental Type Certificate SA05-50.

Accordingly, TCCA has issued Canadian Supplemental Type Certificate **SA05-50**, at **Issue 7**, in the name of Tulmar Safety System Inc. as the supplemental type certificate holder for the design change model designated: Baby Bassinet (Skycot), P/N NNAL141-1C.

As applicable, you are requested to reissue your current Supplemental Type Certificate or Validation Certificate or other formal approval documents in the name of Tulmar Safety System Inc..

Canada

Effective July 3, 2019, please contact this office at the following address, for any issues relating to this type design change approval and continued airworthiness activities:

**Transport Canada Civil Aviation (TCCA)
National Aircraft Certification
159 Cleopatra Drive,
Nepean, Ontario, K1A 0N5
