EASA.21J.760

Background:

Due to a change in the company registration, RUAG AG received a new DOA number (21J.760). All STCs listed above, and related minor change/repair approvals and all associated documentation issued previously to, or approved under their DOA privileges by the same company but under the DOA number 21J.451 remain valid and the obligations and continuous support is ensured by the organisation under the new DOA number. This pertains also to manuals and other technical publications issued under the old DOA number 21J.451. No technical change is linked to this process.
