Dear Sir/Madam,

The City of Cape Town notes the proposed development of the Atlantic Aerodrome on Cape Farm 27-4.

Aviation plays an important role in enabling economic growth, supporting connectivity, and facilitating investment and job creation. Initiatives of this nature have the potential to contribute positively to regional economic activity.

Based on the approvals already granted by the City, we have no objection to the project proceeding through the relevant regulatory processes.

We trust this will assist with the NASCOM submission.

Yours faithfully,

James Vos

Mayoral Committee Member for Economic Growth: City of Cape Town
