CARD LICENCE – PHASE 5

We are excited to announce the rollout of Phase 5 of the card licence project, which includes the Commercial Pilot Licence (CPL) and Airline Transport Pilot Licence (ATPL). This phase will be implemented in November 2023.

PLEASE NOTE THE FOLLOWING:

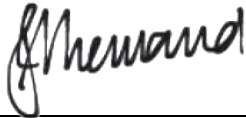

- A card licence will be issued upon submission of the application documentation for either a new licence or the renewal of the competency of a licence. The documentation must be accompanied by a recent passport photo (35 x 45mm), preferably in colour. In the case of a digital submission, the passport photo shall be of a high resolution.
- As we are continuously improving items and ensuring that we are aligned with International Best Practice we will now reflect a maximum of 5 type ratings at the back of the card. All applicants with more than 5 type ratings (renewals and initial for PPL, CPL and ATPL) will be required to indicate their preferred type ratings to be printed on the card. All type ratings will still be accessible on our card portals. Form CA 61.09 0a. is available on the website to indicate your type ratings to reflect on the card.
- All clients can access their license information through scanning the bar code at the back of the card. Starting 1 November 2023, the current web-service portal will be deactivated and replaced with a more efficient platform

All queries to card licence can be referred to cardlicence@caa.co.za .

PHASES	TYPES OF LICENCES	ROLLOUT DATES
